

## Section 2: Approaches to Implementation

### Management Style

The management style of the School Administrator, and the way in which the *Secondary School Literacy Test* is implemented in the school, will impact dramatically on the success of the students in the current and future years as well as the overall climate for learning.

### Three Scenarios

As a demonstration of the impact the School Administrator can have on the process, three scenarios are presented.

In each of the these, the School Administrator adopts a particular approach to the *Secondary School Literacy Test*. The actions which flow from the approach are described, along with the impact of these actions on other key people in the school. The three scenes are characterized by key statements by the School Administrator.

**The management style of the School Administrator...will impact dramatically the success of the students in the current and future years as well as the overall climate for learning.**
